

COMPANY PROFILE

Adhesives | Coatings | Bonding Agents
| Water proofing | Electromechanical |
MEP | Construction & Industrial
Chemicals.

An Endowed Manufacturing Company

Green Tech International Adhesive Manufacturing LLC is established in 2006 promoted by a committed group of Technocrats with proven track record and expertise. We are located in Ajman Industrial Area, U.A.E. with more than a decade of serving the UAE market as well as the neighboring Gulf Regions – prized as one of the leading Manufacturer of Adhesives, Coatings, Bonding Agents and Water proofing products, wide spectrum of Electromechanical, MEP and Construction & Industrial Chemicals.

Serving our valued clientele with loyalty and dedication at supplying excellent quality products at competitive pricing has won the patronage of our ample business partners. Our team has created a niche for our company to be well known in the Middle Eastern market – What had started as a journey on a rough desert terrain years back has reached places where we are making our own pathways of success.

WHY US?

We're your top choice for all your HVAC needs. With over a 19 years of expertise serving the UAE and Gulf Regions, we offer unparalleled manufacturing excellence, innovative solutions, and a commitment to quality assurance. Our dedicated team ensures customer satisfaction through responsive service, market knowledge, and sustainable practices. Choose Green Tech International for reliable, efficient, and environmentally-friendly HVAC solutions tailored to your requirements

- ❑ We supply range of premium quality coatings at Competitive prizes.
- ❑ Our adhesive has excellent bonding ability meticulously refined By our professional chemical Engineer
- ❑ Our production team has decades of experience that makes them expert in the Manufacturing domain.
- ❑ We are ISO 9001: 2015 Certified That guarantees Excellent service

Green Tech International aspires to be the market leader in Manufacturing of Adhesives, Coatings, Water Proofing Products, Building & Construction Chemicals, Air Conditioning Materials, Components and accessories for Commercial & Industrial markets globally.

MISSION

By understanding and meeting the needs of our customers we aim to provide unequalled customer service. We support our growth with the continuous development of a collaborative workforce and through unrelenting responsive efforts to achieve quality but low cost and environmentally friendly products.

AN ISO CERTIFIED COMPANY

OUR PRODUCTS

Our waterproofing systems provide a lasting barrier to water penetration, will not embrittle and are highly resistant to sunlight. Easily applied to all types of structure their liquid composition allows complex shapes to be easily and seamlessly waterproofed without removal, in many cases, to the existing substrate, meaning less disruption during application.

**OUR TRADING
DIVISION**

HVAC PRODUCTS

Elevate your HVAC systems with Green Tech International’s comprehensive range of products, including **coatings** and adhesives. From **solvent-based** solutions like GEE FIX SDG 81-10 and **water-based adhesives** like GEE FIX 85-60, to specialized options such as GEE FIX VBC 60-95 and GEE FIX XLP (100K), we provide reliable solutions to enhance performance and efficiency in your HVAC projects.

Coatings

Elevate surfaces with Green Tech International’s premium coating products. From the durable protection of GEE FIX 30-36 to the versatility of V-KOT 30-36, our range offers solutions like GEE FIX VBC 60-95 for lasting enhancement across various applications.

| PRODUCT NAME | DESCRIPTION |
|-------------------|---|
| GEE FIX 30-36 | GEE FIX 30-36 is a high-performance coating formulated to provide durable protection and aesthetic enhancement for various surfaces. |
| GEE FIX 30-36 AF | GEE FIX 30-36 AF is a high-performance coating designed to provide durable protection and aesthetic enhancement for various surfaces. |
| GEE FIX VBC 60-95 | GEE FIX VBC 60-95 is a high-quality coating specifically formulated for versatile protective and decorative applications. |
| GEE FIX 30-80 | GEE FIX 30-80 is a premium coating designed to provide durable protection and aesthetic enhancement for various surfaces. |
| V-KOT 30-36 | V-KOT 30-36 is a high-quality coating designed to provide durable protection and aesthetic enhancement for various surfaces. |

Solvent Based Adhesives

Enhance your HVAC systems with Green Tech International’s range of solvent-based adhesives. From GEE FIX SDG 81-10 to specialized options like GEE FIX XLP (100K), our solutions ensure strong and durable bonds for various HVAC applications, delivering reliability and performance you can trust.

| PRODUCT NAME | DESCRIPTION |
|----------------------|--|
| GEE FIX SDG 81-10 | GEE FIX SDG 81-10 is a solvent-based adhesive specially formulated for HVAC applications. This high-strength adhesive provides excellent bonding for a variety of substrates. |
| GEE FIX 81-10 | GEE FIX 81-10 is a solvent-based adhesive meticulously engineered for HVAC applications. With its robust formulation |
| GEE FIX CA 22 | GEE FIX CA 22 is a solvent-based adhesive formulated specifically for HVAC applications. Engineered to provide exceptional bonding strength, this adhesive ensures secure & durable |
| GEE FIX R242 | GEE FIX R242 is a solvent-based adhesive specifically formulated for HVAC applications. With its robust formulation, this adhesive provides exceptional bonding strength, ensuring secure and long-lasting connections |
| GEE FIX XLP (100K) | GEE FIX XLP (100K) is a high-strength solvent-based adhesive specially formulated for HVAC applications. |
| CHLOROPRENE ADHESIVE | Chloroprene Adhesive, also known as neoprene adhesive, is a versatile adhesive known for its excellent bonding strength, resistance to heat and chemicals, and flexibility. |
| CONTACT ADHESIVE | Contact Adhesive is a versatile adhesive designed for bonding a wide range of substrates in various applications. This adhesive offers strong initial tack, high bond strength, and flexibility, making it suitable for both permanent and temporary bonding requirements. |

Water Based Adhesives

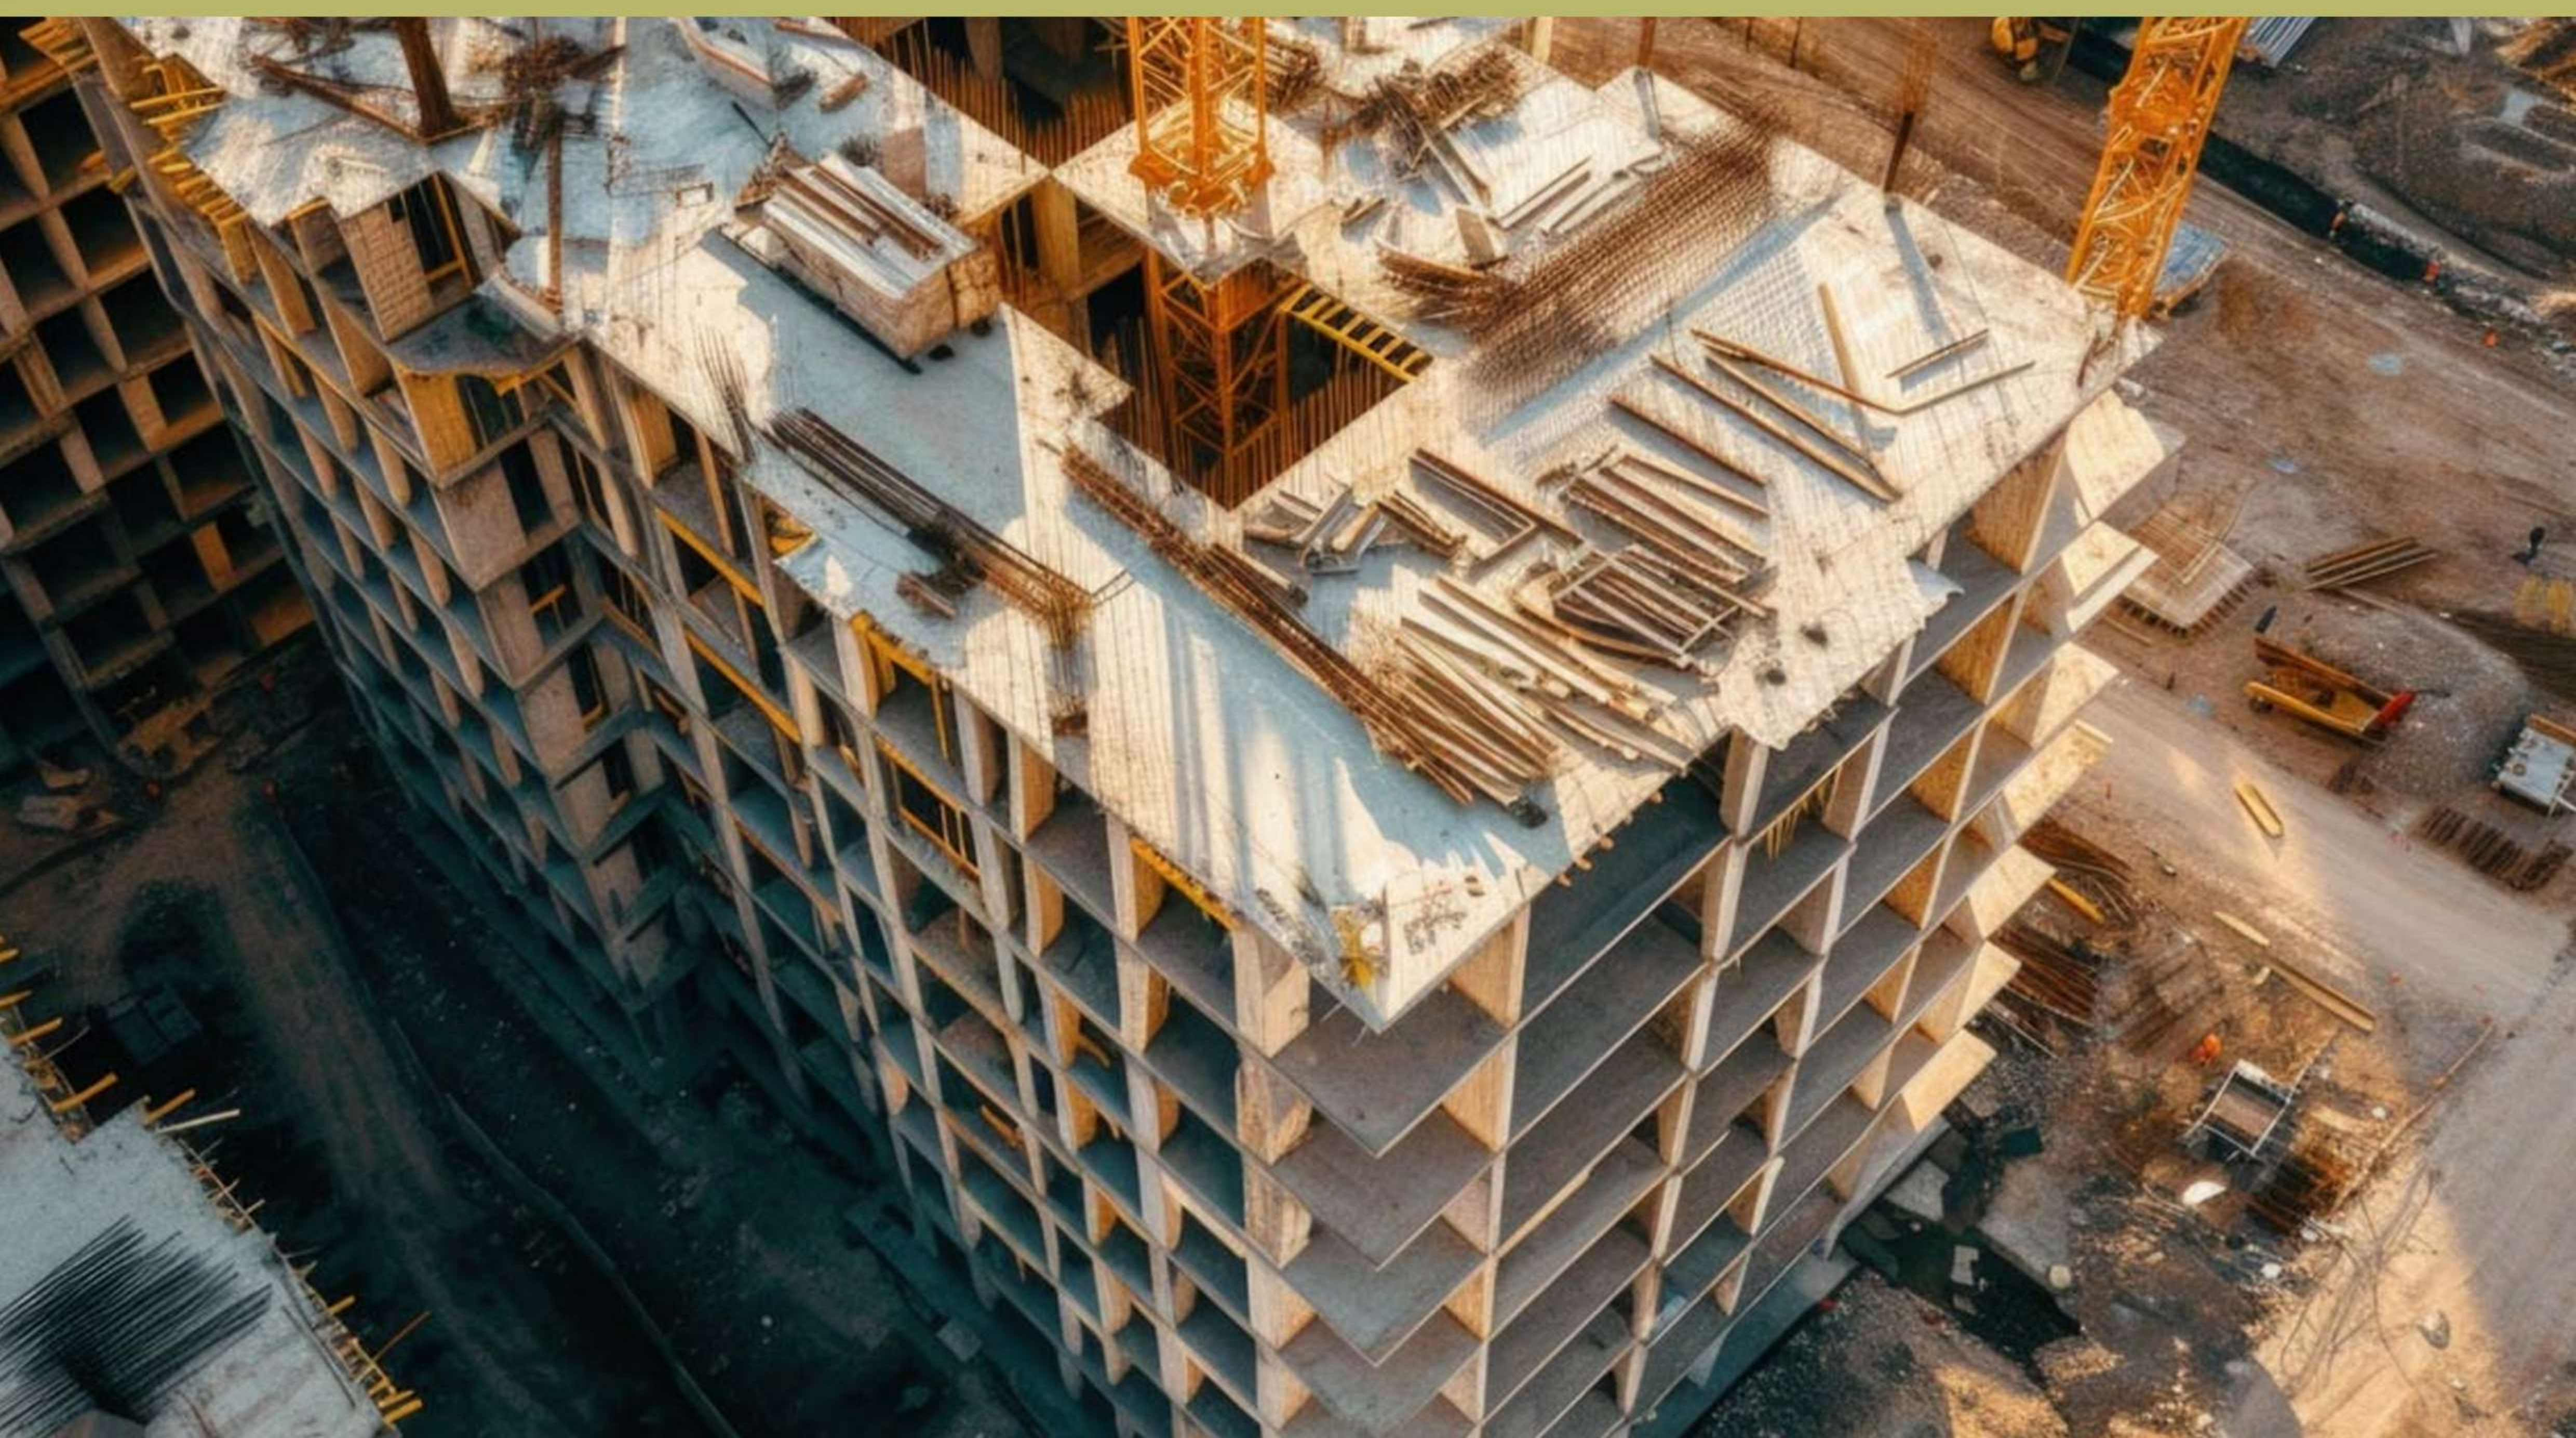

Unlock the potential of Gee Fix 85-60 water-based adhesives, delivering unmatched bonding strength across a spectrum of applications. From woodworking to packaging, Gee Fix ensures reliable adhesion with its eco-friendly formulation. Trust in Gee Fix for robust bonds that stand the test of time, all while prioritizing environmental sustainability. Discover the versatility and dependability of Gee Fix 85-60 today for your adhesive needs. Explore our range of solutions and experience the difference firsthand.

PRODUCT NAME

DESCRIPTION

GEE FIX 85-60

GEE FIX 85-60 Adhesive is specially formulated for adhesive to bound all types of insulation material i.e. Bitumen sheets, GI aluminum air conditioning ducts and steel asbestos sheets. It is very good in film forming nature which gives uniform bonding to most substrate.

INDUSTRIAL & CONSTRUCTIONS

Explore Green Tech International's comprehensive range of industrial and construction solutions, including products tailored for various applications. From **construction** materials and **wood** products to **waterproofing** solutions, **flooring**, **mattresses**, **upholstery**, **general-purpose adhesive** such as **epoxy**, we provide high-quality solutions to meet your diverse needs with reliability and performance.

Constructions

Elevate your industrial and construction projects with Green Tech International's comprehensive range of solutions. From construction materials to waterproofing solutions, flooring, mattresses, upholstery, and versatile adhesives

| PRODUCT NAME | DESCRIPTION |
|---------------------------|--|
| GEE FIX P8 | GEE FIX P-8 Is an acceleration plasticizer or water reducing agent for concrete and mortar and is based on calcium chloride. |
| GEE FIX SBR BONDING AGENT | GEE FIX SBR Bonding Agent is a high-quality styrene-butadiene rubber emulsion specially formulated for enhancing the bonding properties of cementitious materials. |
| GEE FIX BA3 POLYMER | GEE FIX BA3 Polymer is a premium polymer modifier designed to enhance the performance of cementitious materials |
| GEE FIX PVA BONDING AGENT | GEE FIX PVA Bonding Agent is a high-quality polyvinyl acetate (PVA) emulsion specially formulated to enhance adhesion and durability of cementitious materials. |

GEE FIX SBR MRA

GEE FIX MRA-3 is a chemical release agent, specially formulated to give easy release of formwork and high quality finishes to concrete.

GEE FIX MDI/ POLYOL

GEE FIX MDI/Polyol is a two-component adhesive system consisting of methylene diphenyl diisocyanate (MDI) and polyol.

GEE FIX GEL COAT

GEE FIX Gel Coat is a high-quality gel coat resin specially formulated for surface finishing and protection in composite manufacturing and repair applications.

GEE FIX STYRENE MONOMER

GEE FIX Styrene Monomer is a high-purity monomeric liquid used as a key component in the production of various polymer-based products.

GEE FIX ANTIFOAMING AGENT

Antifoam antifoaming is an Industrial grade, general purpose antifoam, cost effectiveness and significant performance. It normally disperses easily across the extensive range of applications

GTI
ADHESIVES

Wood Adhesive

Explore the ultimate in wood adhesive solutions featuring **Gee Fix WA 50000 (K)**, **Gee Fix GP 50000 (X)**, and **Gee Fix WA-HPK**. For **lamination** needs, trust **Gee Fix LPW** for unmatched quality and performance. Elevate your woodworking projects with our comprehensive adhesive range. Discover more now!

| PRODUCT NAME | DESCRIPTION |
|----------------------|---|
| GEE FIX WA 50000 (K) | GEE FIX WA 50000 (K) is a high-performance water-based adhesive specifically formulated for bonding a wide range of substrates in various industrial and construction applications. |
| GEE FIX GP 50000 (X) | GEE FIX GP 50000 (X) is a high-strength general-purpose adhesive designed for bonding a wide range of substrates in industrial, construction, and DIY applications. |
| GEE FIX WA – HPK | GEE FIX WA – HPK is a high-performance water-based adhesive specifically engineered for bonding porous substrates in demanding industrial and construction applications. |

Lamination

Elevate your lamination projects with **Gee Fix LPW** adhesive. Trust in our high-quality solution for durable and reliable lamination results. Explore more now!

| PRODUCT NAME | DESCRIPTION |
|--------------|--|
| GEE FIX LPW | GEE FIX LPW is a low-pressure waterproofing system designed for reliable protection of below-grade structures against water ingress and moisture damage. |

WATERPROOFING

Discover comprehensive waterproofing solutions with Gee Fix. From Gee Fix IR 4010 to Gee Fix TCC Waterproofing, trust our range for superior protection against moisture.

| PRODUCT NAME | DESCRIPTION |
|-------------------------------|---|
| GEE FIX IR 4010 | GEE FIX IR 4010 Waterproofing is a specialized industrial adhesive formulated for waterproofing applications in challenging environments. |
| GEE FIX AC 603K WATERPROOFING | GEE FIX AC 603K Waterproofing is a high-performance waterproofing system designed for reliable protection against water ingress and moisture damage in various construction applications. |
| GEE FIX AC 600K | GEE FIX AC 600K Waterproofing is a premium-grade waterproofing system engineered to provide reliable protection against water ingress and moisture damage. |
| GEE FIX AB 602K | GEE FIX AB 602K Waterproofing is an advanced waterproofing system designed to provide reliable protection against water ingress and moisture damage in construction applications. |
| GEE FIX 5000 (K) | GEE FIX 5000 (K) Waterproofing is a high-performance waterproofing system designed to provide reliable protection against water ingress and moisture damage. |
| GEE FIX TCC | GEE FIX TCC Waterproofing is a specialized waterproofing system designed to provide reliable protection against water ingress and moisture damage in construction applications. |

Flooring, Mattress & Upholstery

Elevate your flooring, mattress, and upholstery projects with premium solutions.

| PRODUCT NAME | DESCRIPTION |
|-----------------------|---|
| GEE FIX FA 60-80 | GEE FIX FA 60-80 is a versatile adhesive specifically formulated for flooring, mattress, and upholstery applications. |
| GEE FIX CAPET | GEE FIX Carpet Adhesives are specially formulated for flooring, mattress, and upholstery applications. |
| GEE FIX SOFA ADHESIVE | GEE FIX Sofa Adhesive is a specialized adhesive designed for flooring, mattress, and upholstery applications. |
| GEE FIX FOAM ADHESIVE | GEE FIX Foam Adhesive is a specialized adhesive formulated for flooring, mattress, and upholstery applications. |

General-Purpose Adhesives

Explore versatile solutions for all your bonding needs with our range of general-purpose adhesives.

| PRODUCT NAME | DESCRIPTION |
|---------------------|--|
| GEE FIX TILE GLUE | GEE FIX Tile Glue is a versatile general-purpose adhesive designed for various bonding applications |
| GEE FIX MARBLE GLUE | GEE FIX Marble Glue is a high-quality general-purpose adhesive specially formulated for bonding marble |
| GEE FIX CAR PUTTY | GEE FIX Car Putty is a versatile general-purpose adhesive specially formulated for automotive repair and restoration applications. |
| GEE FIX CA 22A | GEE FIX CA 22A is a versatile general-purpose adhesive designed for a wide range of bonding applications |

Epoxy

Explore the strength and versatility of epoxy solutions for your projects. Trust in our premium epoxy products for reliable bonding and durable finishes. Discover the perfect epoxy solution to elevate your work today.

| PRODUCT NAME | DESCRIPTION |
|----------------------------|--|
| GEE FIX TWO COMPONENT | GEE FIX Two Component Epoxy is a high-performance adhesive system consisting of a resin and hardener component that, when mixed together, forms a strong and durable bond. |
| GEE FIX EPOXY ROOF COATING | GEE FIX Epoxy Roof Coating is a premium-grade protective coating specially formulated for roof surfaces. |

Paper and Packaging

Elevate your paper and packaging projects with premium solutions. Explore versatile options for durable and sustainable packaging materials. Discover the perfect fit for your needs now!

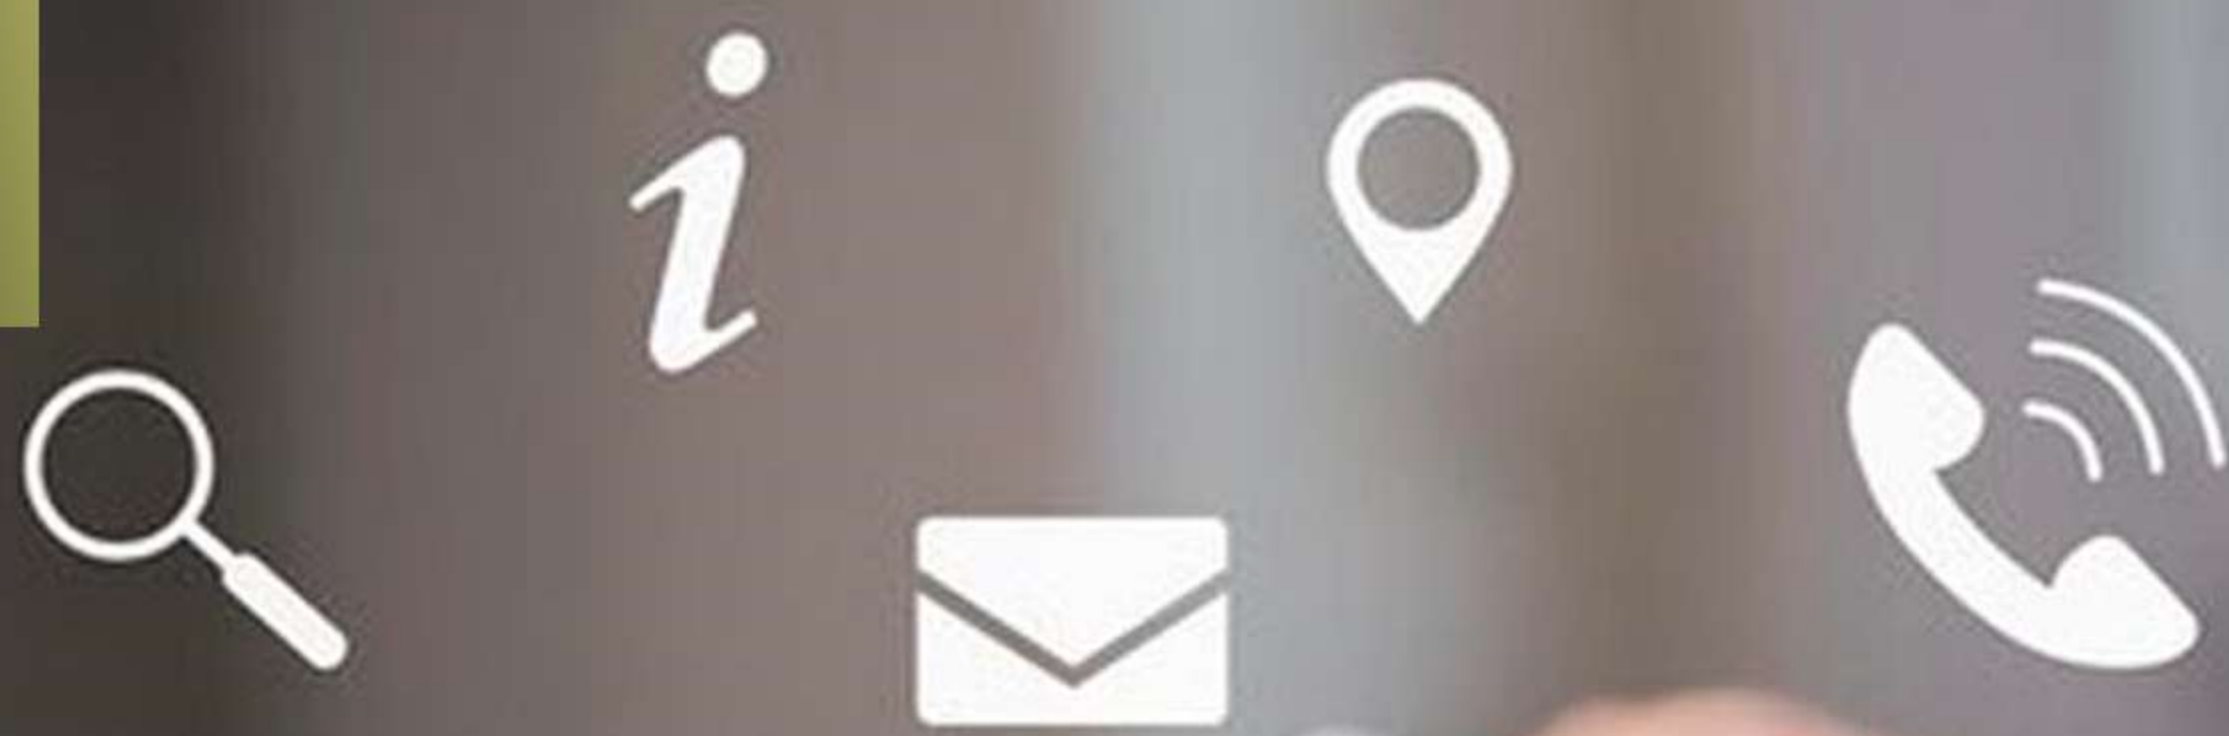

| PRODUCT NAME | DESCRIPTION |
|---------------------------|--|
| GEE FIX LV-CW | GEE FIX LV-CW is a specialized adhesive designed for paper and packaging applications. |
| GEE FIX CW | GEE FIX CW is a specialized adhesive designed for paper and packaging applications. |
| GEE FIX VLV-CW | GEE FIX VLV-CW is a specialized adhesive formulated for paper and packaging applications. |
| GEE FIX TISSUE LAMINATION | GEE FIX Tissue Lamination is a specialized adhesive designed for laminating tissue papers and other |
| CARTON SEALING | Carton Sealing Adhesive is a specialized adhesive designed for sealing and securing cartons in packaging applications. |
| FLUTE LAMINATION | Flute Lamination Adhesive is a specialized adhesive formulated for bonding flute liners to corrugated medium in the production of corrugated board. |
| PACKAGING LAMINATION | Packaging Lamination Adhesive is a specialized adhesive formulated for bonding multiple layers of flexible packaging materials in lamination processes. |
| BOOK BINDING | Book Binding Adhesive is a specialized adhesive formulated for binding the pages of books, magazines, catalogs, and other printed materials. |
| COLD LAMINATION | Cold Lamination Adhesive is a specialized adhesive designed for bonding and laminating flexible materials without the need for heat activation. |
| GRAPHIC ARTS ADHESIVE | Graphic Arts Adhesive is a specialized adhesive formulated for various applications in the graphic arts industry, including mounting, laminating, and assembly of printed materials. |
| CORRUGATED ADHESIVE | Corrugated Adhesive is a specialized adhesive formulated for bonding corrugated board components in the manufacture of corrugated packaging products. |

OUR TRADING DIVISION

Explore GTI Adhesives' Trading Division for an extensive selection of HVAC and construction materials. Our inventory encompasses everything from HVAC grills, diffusers, and anti-vibration products to insulation options from leading brands like KIMMCO, AFFICO, and KNAUF. We also offer a range of hardware, including copper fittings, threaded rods, and bolts.

Whether you need flexible ducting, insulation materials, or titanium dioxide, we have you covered. Our commitment to quality ensures that you receive top-notch products for your projects. With GTI Adhesives, you can trust in reliable materials to elevate your construction and HVAC endeavors. Discover the difference our comprehensive range of products can make in ensuring the success and efficiency of your projects.
